Monthly Product Demand
Sum of Quantity by Year and Month

Trend: Monthly product demand fluctuated from January 2023 to July 2026, with sharp peaks in late 2025 and early 2026.

Insight: Investigate the months with unusually high demand to identify sales drivers and improve inventory planning for future peak periods.

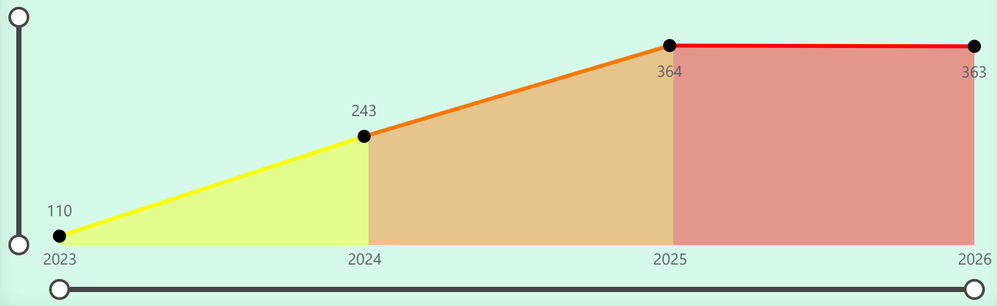

Top 10 Products by Quantity
Sum of Quantity by Name

Trend: Agnijith 90 grams leads with 508 units sold, followed by Agnihari 90 grams at 252 units, while the remaining products have considerably lower quantities.

Insight: Focus on maintaining stock of the two best-selling products and explore ways to increase sales of lower-demand products.

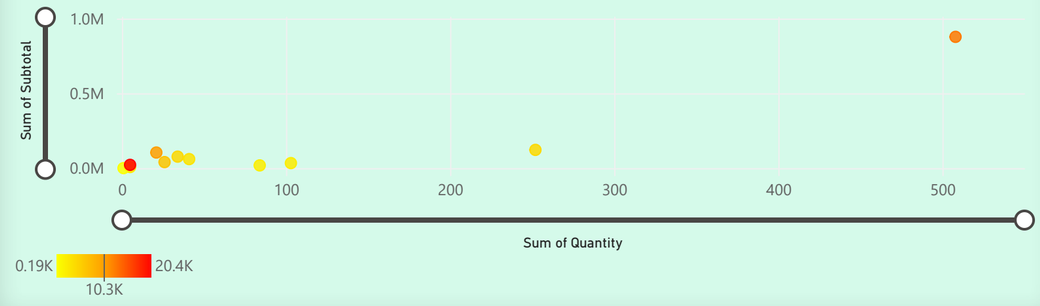

Yearly Product Demand
Sum of Quantity by Year

Trend: Product demand increased from 110 units in 2023 to 364 in 2025, before remaining nearly stable at 363 in 2026.

Insight: Demand has grown substantially since 2023, so inventory planning should account for higher sales volumes while considering that 2026 data covers only part of the year.

Product Quantity vs Revenue (INR)
Sum of Quantity and Sum of Subtotal by Name

Trend: Revenue generally increases with product quantity, with Agnijith 90 grams leading at approximately 508 units and showing the highest subtotal.

Insight: Focus on high-volume products such as Agnijith 90 grams while evaluating the lower-volume products for opportunities to improve sales.
